

NATIONAL NATIVE HIV/AIDS AWARENESS DAY MARCH 20TH

#NNHAAD #StopHIVTogether

RESILIENCY IS IN OUR BLOOD

Let's continue to stop HIV together

In 2022

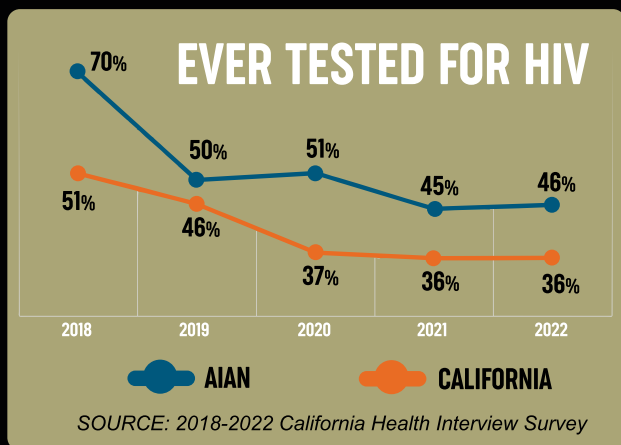

46% of American Indians/Alaska Native (AIAN) people living in California have **ever been tested for HIV**, much **higher** than the California state average of **36%**.

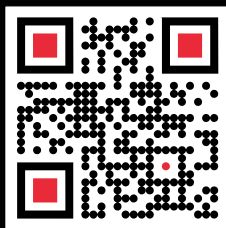

46%
AIAN average

36%
California average

However, HIV testing has been on the decline in California:
